

# C&W CST Daily Practice Update – Providers

**DATE: February 26, 2022**

Topic	Practice
	<p>If you cannot access CST Cerner at Go-Live:</p> <ul style="list-style-type: none"> <li>• Try restarting your computer</li> <li>• Find an At The Elbow Support (<b>red</b> shirt) and tell them your access is not working.</li> <li>• You can get help from the CST Learning team at the <b>CST Hub</b> (Room 1H15 - next to the gift shop) between 0800-1600 daily. The CST Learning Team will confirm outstanding training and next steps.</li> <li>• If you have access to CST Cerner from another live location (e.g. non-PHSA, infosys or VCH), you need to login to CST Cerner with that login and not your PHSA login</li> </ul>
<p><b>Dosing Weight – use always</b></p>	<p>Always use dosing weight. A patient’s dosing weight is used to calculate weight-based medication orders.</p> <p>Dosing weight appears on the patient banner bar and in the Dose Calculator.</p> <p>If the patient does not have a documented/ordered dosing weight you will be contacted to order/document it.</p> <p>See also CST Cerner Help: <a href="#">Update Dosing Weight</a></p>
<p><b>Food Allergy communication</b></p>	<p>After food allergy is entered, place an “Additional Diet Communication Order” to the kitchen to alert them to a food allergy.</p>
<p><b>Parenteral Nutrition Orders deadline</b></p>	<p>Parenteral nutrition <b>orders must be placed no later than 1200h (noon) daily</b>. Late support for parenteral nutrition preparation is not available during the CST Go-Live/sustainment.</p>
<p><b>Use CST Cerner MRN only</b></p>	<p>All labs, diagnostics and other orders cannot be actioned unless the correct CST Cerner MRN is used</p>
<p><b>Ordering Pediatric General Diets</b></p>	<p>Providers must order PEDIATRIC general diets for BCCH. Pediatric general diets trigger texture for age. General diets are for adults and do not trigger texture adjustments for age. General diets are for adults/BCW only.</p> <p>To order a pediatric diet, start typing “Pediatric Diet” and complete the appropriate sections.</p> <div data-bbox="576 1543 1412 1659" style="border: 1px solid #ccc; padding: 5px;"> <p>Search: <input type="text" value="pediatric diet"/>  <input type="button" value="Advanced Options"/> <input type="button" value="Type"/></p> <p>  Diet Pediatric</p> </div> <p>If texture is not filled, the kitchen will send the standard texture for the age of the patient. Please refer to the C&amp;W <a href="#">Diet Writing Guidelines</a> for more</p>
