

C&W CST Daily Practice Update – Providers

DATE: February 27, 2022

Topic	Practice
<p>Access to CST Cerner</p> 	<p>If you cannot access CST Cerner at Go-Live:</p> <ul style="list-style-type: none"> • Try restarting your computer • Find an At The Elbow Support (red shirt) and tell them your access is not working. • You can get help from the CST Learning team at the CST Hub (Room 1H15 - next to the gift shop) between 0800-1600 daily. The CST Learning Team will confirm outstanding training and next steps. • If you have access to CST Cerner from another live location (e.g. non-PHSA, infosys or VCH), you need to login to CST Cerner with that login and not your PHSA login
<p>Use CST Cerner MRN only</p>	<p>All labs, diagnostics and other orders cannot be actioned unless the correct CST Cerner MRN is used</p>
<p>CST Cerner vs. CW Cerner</p>  <p>Right System, Right Encounter!</p>	<p>CST Cerner Powerchart Blue Title Bar</p>  <p>CW Cerner Powerchart Purple Title Bar</p>   <p>CST Cerner Help: Find the Right Patient and Right Encounter</p>
<p>Patient Safety Alert: Ad hoc/PRN Short Acting insulin required in addition to Long acting</p> 	<p>Place Powerplan for long acting insulin (includes orders of monitoring blood sugars). Nurse will contact Provider with blood sugar results to then place ad hoc orders for short acting insulin.</p>
<p>Dosing Weight – use always</p>	<p>Always use dosing weight. A patient’s dosing weight is used to calculate weight-based medication orders.</p> <p>Dosing weight appears on the patient banner bar and in the Dose Calculator.</p> 

C&W CST Daily Practice Update – Providers

Topic	Practice
	 <p>If the patient does not have a documented/ordered dosing weight you will be contacted to order/document it.</p> <p>See also CST Cerner Help: Update Dosing Weight</p>
<p>How to Access Mmodal from Caradigm Launchpad (if hidden)</p>	
<p>Radiology Reports will display in CST Cerner</p>	<p>Reminder:</p> <ul style="list-style-type: none"> Both Prelim and Final Medical Imaging Reports are visible in CST Cerner. Final MI reports are also viewable in PACs, Prelim are not.
<p>Group & Screen Sample collection</p>	<p>Group and screen must either be collected using Clinical Collect or Handwritten labels only. Group and Screen labelled with Cerner Lab Labels will not be accepted by Transfusion Medicine. The sample must come with a requisition.</p>
<p>Food Allergy communication</p>	<p>After food allergy is entered, place an “Additional Diet Communication Order” to the kitchen to alert them to a food allergy.</p>
<p>Parenteral Nutrition Orders deadline</p>	<p>Parenteral nutrition orders must be placed no later than 1200h (noon) daily. Late support for parenteral nutrition preparation is not available during the CST Go-Live/sustainment.</p>
<p>Ordering Pediatric General Diets</p>	<p>Providers must order PEDIATRIC general diets for BCCH. Pediatric general diets trigger texture for age. General diets are for adults and do not trigger texture adjustments for age. General diets are for adults/BCW only.</p> <p>To order a pediatric diet, start typing “Pediatric Diet” and complete the appropriate sections.</p>  <p>If texture is not filled, the kitchen will send the standard texture for the age of the patient. Please refer to the C&W Diet Writing Guidelines for more information.</p>
